The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting at white eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is, which is uot true of any method hithertoused.

In their ragged regimentals,, Stood the old Continentals,

Stood the old Continentals,
Yielding not,
When the Grenadiers were lunging,
And like hail fell the plunging
Camon shot;
When the files
Of the Isles,
From the smoky night encampment bore
the banner of the rampant

Then with eyes to the front all, And with guns horizontal, Stood our sires! And the balls whistled deadly,

Swept the strong battle breakers o'er the green sodded acres Of the plain;
And louder, louder, louder cracked the black gunpowder,
Cracked amain!

Worked the red St. George's Cannoniers; And the "villainous saltpetre" Rang a fierce discordant metre Round their ears ; And the swift Storm drift

With hot sweeping anger came the horse-guards' clangor
On our flanks;
Then higher, higher, higher burness
old-fashioned fire
Through the ranks!

And his brazen threat was ringing
Trumpet loud;
Then the blue

And the troopers' jackets redden at the

And rounder, rounder, rounder,
the iron six-pounder,
Hurling death!
